The question of whether these funds covered items within the original scope of work has been raised by the budget people (correctly).

It is well accepted within the federal construction industry that changes within 15% of total price are automatically assumed to be

within the scope. In sum, OL restates its position in paragraph 3 of attached that the additional funds are within the scope of work.

The Comptroller advises that FY 77 funds are available. Recommend your approval.

MEMORANDUM FOR: Director of Logistics

FROM: Donald E. Smith
Director of Training

SUBJECT: Proposed Memorandum from Director
of Logistics to the Comptroller
Regarding [REDACTED]

1. Forwarded herewith is a proposed memorandum from the Director of Logistics to the Comptroller requesting additional funds from FY-77 for the installation of the fire-suppression system [REDACTED]. Construction of [REDACTED] is well along toward completion, and is rapidly reaching the point where installation of the suppression system should be made. Use of FY-77 funds is justified on the basis that the work involved is a revised cost estimate and not a change of the scope of the project. (C)

2. It is requested that the Director of Logistics forward the memorandum to the Comptroller requesting the additional funding. (C)
